ABOUT ME

Achieving the career of your dreams is not impossible when you know where to start...

As a certified scrum web developer participated in and developed a wide range of projects, I am a computer engineer specializing in software engineering. My training is proof of my autonomy and my adaptability, and my professional experiences have allowed me to develop my critical sense. On the personal side, I am a rather communicative, sociable, attentive and reliable person. I have an active life position and I am driven by a strong curiosity to learn, hardworking, rigorous, available and I have a good sense of direction.

PROFESSIONAL EXPERIENCE

Web developer (Python, NodeJS / ReactJS) & mobile developer (React Native)

SBG TECHELECTRO, Tunis, Tunisia

(Jul 2023 – Today)

- **Analysis of functional and technical requirements** to design and implement tailored solutions.
 - **Design and implementation** of data models, backend services, and frontend features.
 - **Migration from NoSQL to SQL database:**
 - Data transfer and restructuring,
 - Adaptation and refactoring of existing functions to fit the new architecture,
 - Development of new features based on business requirements.
 - **API testing and validation** with Postman, as well as frontend integration.
 - **Deployment of applications and databases** on **Ubuntu / DigitalOcean** environments.
 - **Version control and team collaboration** using Git and GitHub.
 - **Continuous Integration and Deployment (CI/CD)** setup with GitHub Actions.
 - **Configuration and optimization of web servers** using **Nginx** and **Gunicorn**.
 - **Application security:** SSL certificate installation and management, HTTP → HTTPS redirection.
 - **Backend development** with **Node.js (Prisma ORM)** and **Python (Django / Flask)**.
 - **Cross-platform mobile application development (Android & iOS) with React Native:**
 - **Notification app:**
 - Real-time device alerts,
 - Phone number authentication and OTP code verification,
 - User profile management.
 - **Bluetooth app (BLE – Bluetooth Low Energy):**
 - Scanning and detection of nearby devices,
 - Bidirectional communication with connected devices (real-time data sending and receiving).
 - **Development of a complex web application with Flask:**
 - **Device connection to a computer** and real-time data display through the web interface,
 - **Full device data management:** add, update, and delete operations,
 - **Integrated application store** to browse, download, and install one or multiple applications directly on the device,
 - **Embedded code deployment feature:** online build and automatic installation of the code onto the board through the application.
 - **Agile (Scrum) methodology** to ensure continuous project improvement and delivery.
-

Backend developer (Python Django)

Carnelian Digital Innovation, Tunis, Tunisia

(Oct 2022 – May 2023)

- **Analysis of business and technical requirements** to design appropriate solutions.
- **Recommendation and implementation of technical solutions** while considering time, budget, and resource constraints.
- **Design, testing, and validation of features** in a staging environment, in close collaboration with the project team.
- **Development and integration of services** using **Celery, Redis, and Elasticsearch**.
- **Implementation of security measures** and **access management** for applications.
- **Database administration and optimization** with **PostgreSQL**.
- **Version control and team collaboration** with Git.
- **Agile (Scrum) methodology** to ensure continuous project improvement and delivery.

FORMATION

National Engineering Diploma in Software Engineering

Private polytechnic school of Monastir, Monastir | 2019 - 2022

Fundamental license in computer management

Higher Institute of Management of Sousse, Sousse | 2016 - 2019

SKILLS

FRONT END

- HTML, CSS (Bootstrap / Tailwind)
- JAVASCRIPT
- REACT JS
- Next JS

BACK END

- Django (Python)
- Flask (Python)
- NodeJS (JavaScript)

MOBILE

- React native
- Expo

DATABASES

- MySQL (SQL)
- PostgreSQL (SQL)
- MongoDB (No SQL)

INTERNSHIPS

CLEVERTECH FRANCE (07 Feb 2022 – 08 Jul 2022)

- Development of a web & mobile application for restaurant management (DJANGO – REACT JS – REACT NATIVE – AGILE SCRUM – AZURE).
- Generate automatic qr code.
- Integrate the Twilio and the SendGrid tools.

GROUPE FLORUS, Tunis | (01 Aug 2021 – 31 Aug 2021)

- Development of a web application for users management (ANGULAR – SPRING BOOT – AGILE SCRUM).

CARTHAGE SOLUTION, Tunis | (10 Août 2020 – 10 Sept 2020)

- Development of a web application for company management (HTML, CSS, JAVASCRIPT, PHP, MYSQL).
- Create a client project with WordPress.

DEV-GX, Tunis | (11 Fév 2019 – 10 Mai 2019)

- Design and development of a web application of human resources management (ANGULAR – LARAVEL).

SANCELLA, Tunis | (01 Juil 2018 – 31 Juil 2018)

- Development of a leave web application in PHP.

CERTIFICATES

➤ Coursera - IBM

(IBM Full Stack Developer)

<https://coursera.org/verify/professional-cert/QFAW7RVFJB35>

➤ Coursera - Meta

(Meta Backend Developer)

<https://coursera.org/verify/professional-cert/BB6YY4TNTBRC>

➤ SCRUM study

(Scrum Fundamentals Certified)

<https://www.scrumstudy.com/certification/verify?type=SFC&number=891020>

➤ LinkedIn Learning

(Become a Software Developer)

<https://www.linkedin.com/learning/certificates/0feaea34dd19fff06127deb790b471769a0d68b5e13e137116237ff5fc853f6f>

➤ IBM

(IBM Academic Certificate exam for Big Data Engineer)

➤ Microsoft

(HTML MTA - CSS MTA - JavaScript MTA – Database administration MTA – Software development MTA)

MASTERING

- ✓ Agile
- ✓ Attention to details
- ✓ Ability to anticipate
- ✓ Team spirit
- ✓ Remote work
- ✓ Excellent analytical skills
- ✓ Sense of organization

INTERESTS

- Chess.
- Swimming.
- Football.
- Photography.
- Camping.

LANGUAGES

- Arabic : Native language.
- French : Good level.
- English : Medium.
